Dear Mother

We were very pleased with your nice letter

down happy you are feeling quite well
& heard from us on your Mother's day.

I thought of you all that day. I had planned
on writing before then when I had not. I tried to write
& was informed that Mother's day greetings would
not be accepted. How very sorry & as you see the
days slipped by - You have all my love & best
wishes even though not expressed on that day.

Aunt Katie called next day after her arrival
& incidentally said you did not feel too good.
If she is right I trust you are now better & that
you religiously avoid all activities that
might have any ill effects.

We are all well here it seems the days
go by & house work still in done.

Resisting weather here which tends to the
latitude often referred to as spring fever.
I am sorry you were not able to come up.

as Aunt Leticia said you has planned
we would have enjoyed your visit so much
Forrest is expected to enter the army
soon after his graduation in about a month.
Last month ago he took an aptitude test at school
& just received a report that he had made satisfactory
grade which entitles him to special consideration
when inducted: Then if he passes other tests
satisfactorily during his 13 weeks basic training
he might well be on his way to medical education.

Many of the marmon boys we know are doing
very well and making marked advancement
when they really apply themselves.

Incidentally tell me about Jean don't forget
to send him our love & best wishes

Wasn't possible - still if there is some greater power
watching over us - & if we are sure here is full some specific
mission - and which is beyond our control - the
most any one can do is to do his best & do it well.

Then if our religion is accurate - we will be blessed even as
though we might never have seen war: - & may be more
we hope pray for an early victory & a minimal loss.

Generally speaking - things are going quite well here
I don't hear often from Bobo - but may be no news is good news
& hope so

Much love & the best of health - All we can see
Lovingly
Dorothy

Don't forget to tell you the Congressmen. So they do the same thing. First summer camp was most
pleasant.
