Dear Mother:

We were very pleased to hear from you but, sorry to learn of the news it imparted relative to uncle Geo. & aunt Belle. & mostly that you had not been feeling well. I sincerely hope your head is better and that you will take good care of yourself and have plenty of rest. Also that your blood pressure is remaining down

I now have two patients on garlic & their pressure is better than with any other medicine.

We were pleased that Beulah is coming home so soon. we are all very anxious to see them all.

They are all fine - Eldon is cutting 4 teeth & a little fussy but not serious

Lucile & I are planning a trip to Salt Lake City
maybe tomorrow, for 4-5 days over
our 17th anniversary. It doesn't seem that long.
I was planning on stopping a couple of
days at Hotel Utah. We will go by train.
There will hardly be time to go to Bear Lake
since I'm expecting a baby on the 25th & should
be here a little before that date.

I don't hear from the ranch so we
suppose all is well there.

I hope you are feeling much better and
are entirely free of all your symptoms.
If there is anything I can do just let me
know.

Let everyone here & our sweet cousins love
& trust that Ida's family are all enjoying
the best of health.

Lovingly yours, Ed
Duggles.
