 I feel like a infant in a foreign land

 from the details of my trip

I let I am I have
 after I arrived at Kulu

in the morning stop over night
 nothing occurred with nothing

finishing my business I am
 to I thank to am full

and my sac condition
 P.S. by the way I had

a happy surprise before
leaving again I found the
Union writing job correspondents
John Edward Burlington and
I never had heard from either since
two years. I had then other friends
I did not know for one was a
young lady. I found the other one
from Denver Col.

The first mentioned I refer
heartily for contains so much
praise to me that I will have to tell
now how they are trying to catch me
The Rev. Elliott Pres. of the Quebec
City Business College has heard
to remark that of all the students
that has ever attended his school
that was one from Quantico
by the name of Beard that
accomplished more in a given time
than any that has ever come
and he said that if he knew where he
was he would solicit his attendance

he said that he would give him
tuition free just for it all that he
could accomplish in penmanship he said
a great deal more not with writing
I saw my little picture in keeping book
in the City she said she would
any thing to know where I was

Now I do not believe all of the
there is something else at the bottom
Never has been it makes me a little faint
when I think of old times

The other I recall said their
regard and want my picture as well
they also invited me to take Christina
Kinnor with them I had never seen
said that he had been looking for me
all spring and summer and would take
if I had fallen in love with some of the
African girls: What shall I tell
her? What I got the letter was more
surprising than I would have been if
I had received a new revelation from
God's heaven

Handwritten notes in the top right margin, including names like "John Edward Burlington" and "Christina Kinnor".
