

13 June 1886

Mother → Nora
Mary

you must write soon and
often and tell me
every thing so I
can think just
how you are
situated and
I want to know
just how your
health is if
you are all
right then
I will feel
better still
I am having
a pain in my
head when
I am going home
did any thing serious
happen to you I
do not hope you will
be very careful
Dear Daughter
Nora I will try and write a few
lines to you so are all as usual I have
had two letters from you since you
went away in the last one you said that
you had written three letters to me but I
only got two but I went to the office
times enough to get over a dozen I was so
very anxious to hear how you got home I
heard from sister Wager that you was very
sick on the road she was up at Preston
when she got home you promised me
fare and square that you would to me as
soon as you got home and when I got no
letter or word from you I did not know
but what you was played out I think
that Will might find some way of
sending a letter to me when you get
Children of your own and they serve

Logan June 13, 1888

of your self
do you will be
healthy
hereafter
well you must
excuse these
few lines for
I am very
tired of writing
for I have written
no many and did
not like to here
and you know
what a paper
make he is going
to leave to with
and keep a boy
- from yourself
I have not seen
to your affection
I think all of
two weeks Mary says that she will not
be home until the last of July I do
not know what made her change her mind
I am sure I wish she was home now for I am
tired of having Chessie so long for he and
Henry quarrel so much they quarrel
worse than ever. It rained last night
all night and snowed all the morning
but it is very nice and pleasant now but
there are some black clouds in the sky
so it may rain to night a gain I hope
it will for it will do the grain good
I have you picked your ducks yet I have
picked mine once and they died it again
I have only four ducks now one stayed
out all night and never came back and
I sold one to bro Clifford the
magpie has carried of the most of
my young ducks so I only have 13 more

when he comes over by Will

stay there three more weeks than she is going to stay three weeks ^{in the old} ^{Prison} one of them was a hickar China is at Watchers now she is going to
has it not funny to think that China's son had turned both while only
you then will you know how anxious I was to
hear how you was and how you got home
when you did write you did not tell me
anything but for all of that I was
very glad to get your letters

Have you got your oil consecrated yet
if not do so and how does your side feel
is it better I hope so you must use the
oil freely when you feel lame or think
you need it Do you ^{know} a certain thing now
that you said you did not know when you
was here how does house keeping agree
with you can you get along with all of
the work without making you sick

you wrote a bout some one coming over
there to stay with you a while but you did
not say who you merely said she
there are so many females a round here
that I do not know which she you
meant Have you and Will joined
a ward yet if not I think you both

and then how are you to get a recon-
mend to go in the Temple without
joining a ward I am living in hopes
of seeing you both in the Temple I
think it will be a happy day for
me then My geranium reaches two things
to the top of the window it is very nice I
will send you a flower off of it so you
can see one of your own bloomers has your
Lady Washington blossomed yet if so
whatt is it like mine is very pretty
the prettiest posay that I ever saw
I do not like to pick one or I would
send you one so you could see what
it looked like I will send you a
puechia to make you think of home
we have 22 colonies of bees and have
sold several or we should have had
more My dad is working most
every day in Mary's house he is
most ready for plastering the ceiling
