My Dear Aaa + Baby

I am here in the
Capitol of our Ter. and find it
a very nice place will remain
but in a very short time and want
to can was down the South side
of the R. to Caldwell I dont
think I can finish your letter now
but will to night wherever I
stop

Here I am 2 or 3 mi. below
C. C. and put up for the night -
I will now give you a description
of the town The place is not
near so large as Logan but a
nice place it beats many things
of its size I see said in fact
it is as beauty the only thing

that I can beat it in is
in the way it is layed out
the streets are very narrow &
the blocks very small taking
4 to make one in I. It is much
better shaded but I don't think
any better water. It has some
very nice buildings I have not
seen all of the town as I was
in but a short time I am a
little behind of my delivery it
took me longer to canvas the
N. side of the river than I thought
it would. There are not near so
many ranches on this side &
I did not go near to visit so
close with Cherry & get to
Galdwell by the last of this m^o.
and begin the delivery. It has
been very cold here for a
week last Monday a mirage is
was Decoration Day in D. C. & it
was so hot there was a man

sun stroke and last Sun. it
was raining & so cold they had
to have a fire & last night I had
more cover on my bed than last
winter & was not so warm

People say they never seen the
like I like this country better
than Bear Lake

Well My Dear

It was just
2 w^{ks}. to the da. from the time
I left home till I got your letter
You can hardly imagine how
anxious I was to get word I
ans. your letter right away
but forgot to put my letter in
box so this time I was really
a little home sick & day but I
I guess I will get over it all
right soon. It leaves me when
I think how bad I need the
money. then I think you & your
little Wesley all right & I can't
