Dear friend

I was almost afraid to write
I had put it off so long that
I am ashamed to. I wrote you
along letter last week but I kept

beginning on the day after to

All day F. L. and I was
colling. in the evening we were
at Mrs. Crabbe spending our
time most agreeably, when a young
gent. came for the girls to go and
help to trim trees for a party in
the seventeenth ward of course
we were invited, and went. why not?

When we got there their services was not want, we took a good look at the presents (and the young folks too) & returned. on our way back we heard the band playing - our curiosity was aroused and we went down toward to see what was going on when we got there we found it it as at the skating rink. The champion bicycle riders of the world were to perform & we went in to see like many other fools. Those who wanted to had the privilege to seats one half hour before the performance coming we took our seats deciding not to try the seats as the ladies had never seated any). The riding commenced at half past nine it was the grandest thing thing I ever witnessed in my life of the kind

there was six of them, only one woman they did most all fancy riding. Oh! it was nice I would give a description of the performance but it would take too long, it lasting one hour well employed consisting of races & fancy riding. The best I ever saw. After they were through we did not want to see the skating but decided to come in the morning & try it ourselves we retired to Mr. L. rabbin for the night morning found us up at eight (or half past nine) we were in the rink trying the seats it was the first time that they had tried them they did real well we seated until half past one in the afternoon we were at home had a good time passed the evening. The same next morning found us at the rink having a good time Mr. L. left for Provo and I stayed with the gals until
