

Single Hill Ranch

Sep. the 9 1884

My Dear Friend Nora

This is the fourth  
I have sent out and had no answer  
yet. What is the reason? Have you  
taken the wings of the morning and  
flown to some unknown part? or have  
you become so interested in your other  
that my letters have been unnoticed  
I am inclined to think something  
has gone wrong. To night I became sleepy  
with reading and thought to go to bed soon

But the walk in the open air has refreshed  
me It is just one quart from where I am boarding  
to my place. and to night I enjoyed the walk  
very much. I attribute it to the course my  
thoughts took and of course you was the sub-  
ject reaching my room I took my pen and  
this large sheet of paper (For I had no other)  
and thought to write you a line. I fear I  
will not be able to fill the whole sheet  
It will not post before Sat. during which time  
I may be able to deface the greater part of it.  
F. J. L. has not returned. Have been  
hauling wheat to day. Came from St. Charles  
last evening. When I have been stopping lately  
I had a good time with the same crowd of

latter I did not do you last year, excepting one  
of course being married and was not there.  
I am going to George Town Sat. if all  
is well. I had intended going to morrow  
but will postpone. Am reading the  
debate between the The Rev. Richard Hartley  
of Ogden and Rev. G. Rich. It is  
real good. Have you read it? and how  
do you like it? If you have not I will send  
it to you. I would like to have your  
opinion in regard to it. - Well I am  
tired; what has made me so I can't tell.  
but I am in no humor to write tonight  
Will finish another time. I want to think  
of you and can't write and do it, so  
Will close

Will

Friday noon. Have concluded  
to go to G. T. today. Have not time  
to finish the whole sheet. Will send this  
and wait with patience for an answer  
He had said here this morning & sticking  
is done for this week for me. I can't  
say I really admire it. It is too much  
like work. I think you will be tired of  
of this letter and wish I had stoped sooner  
No news, no prospect. Mrs. P. told me she  
saw Mrs. Holm's box going here yesterday  
Remember I shall look for a letter soon
