Dear Wife +

and babies

I've just  
come home from Paris and  
had a lunch. The place looks  
lovely no wife and babies to  
greet me and I feel more  
uncomfortable when I think  
you riding all day on the hot  
seats and I say to myself that  
life has been very unpleasent  
to you since our union regarding  
a kind of pleasure + luxuries  
for my part I care nothing but  
I do feel for you + ours I happened  
in the court room just as court was  
dismissed + the judge had just

given a decision on a divorce case  
It was this that the man & wife shall  
go home & make up & live together  
for the sake of their children  
when he had finished the young  
woman just too hard right out  
& kept it up for some time I looked  
at her & thought how different you  
were from her. With our dark  
prospect I am inclined to think  
a ray of light will break in  
& gladden our hearts before long  
I have finished all business  
regarding Larson's injunctive today  
and am inclined to think that  
I will gain Grinnet &  
Howland came up & done much  
better than I expected I found  
several incidents that will go  
against him I may go to Paris  
tomorrow I am not sure but  
I am anxious to hear how it  
will terminate

The home stead I had no trouble  
in getting witnesses I have  
E. Clifton Jennie Grinnet  
Will Lindsey & Howland all  
going willingly & the prospect  
is good to break it all  
right If I should go Paris  
tomorrow I will give you the  
results of the injunctive  
The day I left you in M  
I got the subpoenas & got home  
a way after dark & next morn-  
ing I saw Clifton & Howland  
& helped ferry boat hay  
The day I shot Logan & went to  
Paris I had a headache tonight  
will close now if I don't go  
I will send this to Paris tomorrow  
I send to Presto in care of A-  
L I send love & many kisses  
to you & Babies I see Nestus on the  
door & it makes me feel bad for  
the little fellow I charge you to take  
care of my boys if you do nothing else
