Wednesday evening

Dear Howard and Babes

Preston Idaho

Just finished supper it is dark and cloudy
outside has been raining today I am afraid
we are going to have bad weather for some time
if so but I will take care to get through than
I have allowed I am getting tired working on this
farm plan - hard work and no pay!

Well Darn I guess you are having
a terrible hard time too I feel sorry for you &
the Darling little boys but I don't see how I can help it
if you want to take my advice but God favoring us
it can't last long this way I would ever so much

to see you all to night I am getting quite home
sick lately but can't leave till 2 o'clock though
I think I will have 3 big stacks of here close
across the yard from N. & S. 60 ft at least when I
get it all hauled + one stack in the bottom

It would bring a nice little bit of money if I could
sell it + did not have to pay it for hauling

but if I ruin it won't be so bad which I am very sure
to do but even then I don't like it - almost wish I had not
commenced but as you know I could not help it -

Will you I guess you & the
babies would like to see me
I know I would like you & me
You can look for me any
time I wish, from next day
I can't think of any thing
I have done all of summer
work 4 day & 4 night, my
we cook & eat & wash & bathe

Mrs. B. has not been
I see Mrs. L. had you
afternoon I guess she
time I think she will
it I think seems
in the camp & all
to some place there
now I guess it
I haven't seen
do not you & the
and my darling boy
when I come over
my love & affection
We hardly know
what we think of each other
