to know how to pull the rope. If
only you pull the right one & hard

be safe & snug on our ranch by the

think that I can do be of good

Dear Wife and Babies

I am here this morning
in better cheer than yesterday.

J. B. K. came down on the train yesterday
and all is well I shall commence
in the morning & get through this work
& shall do quite well out of the time
I believe changing climate has almost
put me in the Box I have a very bad
cold but think I shall get a long all
right. We are seeing quite severe
weather here snow on the ground
and likely to stay all winter.

I believe I would have made
money had I got the cattle wintered
in Bear Lake & kept on at work here.

This is & was my best time for canvassing
getting a stock for holly day presents.

But as things took I may have to
come down a gain room if I
can get out of it I will for I need all
of my time here in the field I will
have to lay over 1/2 day I guess & it makes
me almost nervous.
