

willows with chemicals for 30¢ a rod. Do you have any objections to the main ditch being treated where it passes thru your field? If so, kindly let me know right away for they may be able to start work most any time.

Give my love to Mother.

Lovingly, your son,
Rodney.

Dear Dad & Mother,

I hope you are both having a most enjoyable stay in San Leandro. We sent you a turkey for Christmas but not knowing you were still in San Leandro, we sent it to Long Beach. We do hope you will have a wonderful Christmas with the folks there.

This morning (it is now Monday) it looks as tho we may possibly have a white Christmas for it is snowing, a fine light snow. Snow would be a good thing to keep the ground from freezing any harder so a little moisture may be absorbed in the spring thaws. The bad & freezing weather came so soon this year that we have no plowing done. A large part of the threshing in this region had to be done during storms.

Kenneth left yesterday to meet Ruth in Salt Lake. They are expecting to visit together there during Ruth's vacation.

We took the children in Saturday to see the Christmas displays in town. They enjoyed themselves even tho it looked like the tail end of large stores stock. I think they'd be thrilled beyond words if they could ever see the displays in a large city. Tell everyone "Hello" & again best wishes & a really happy New Year! To you. Love, Norma.
