My Dear Girl:

The Sun is shining fine after almost one wk. since it ^{has} commenced raining and kept up most all that time. Every thing growing fine. But I have not done a thing. Late getting here and it is hard to find a man that will work on account of the U.P.A. So all that is left is to let things go and be consumed in the final finish, just stopped for a bit to listen to Texas opening program, and during the short space that has come a storm over the lake and cold winds are blowing and cold it may be another hail storm. There has been some bad ones with this storm! all in all it is a cold funny season all told. J.R. has just finished another building 20x40 ft & has got a lot of turkeys in it. He did not get done any & soon it is nearing the 3000 mark now, wont. be hard to get to 4000. I am looking for you up this Summer and, if you do come you will not find it as nice as last yr.

I have done nothing getting here late and just could not
get the spirit to go a head. After the round trip & back
There seems a lack of interest combined with other
things makes it so it is going to take an effort to start
start out Late coming has a lot to do with it. No
water on South field yet & much of a chance to get in
If I work is sure tells on me and get nothing done
Had a letter from Bunkah yesterday telling Ida's school
will be out and she will try and be there and ready to
start soon for B.L. she is counting on being back by the
8. Less than 10 da. here. where she was counting on 2 wks
I told you in my last that 2 wks and guess were up to the
Semetary. The flowers were pretty well wilted but had a lot
of Lilacs & they were full bloom Regarding the house you should
know best what to do. being on the job. In my judgement would be
of little consequence. If it is leaking it sure should be stopped
Everyone seems well Louis may be home round the 10. Helen may be in
H.L. to the Semetary & others all send love Ida. I will

My Dear Girl I got your letter
last night and to night when I opened my letter file
I found it had not been posted, so I'll just put this
in mail at same time just wrote a letter to B
Had one from her yesterday too. Well I am sorry you are
not coming. I in Beulah's letter she would be in L.P.
the 19th the day school was out and start right a way
she spoke of you being gone and told me to tell you some
of the plans as she would not get to see you. But, as
you say, you are not coming she can tell you what she
wants you to know. I was sure counting on you coming
up. But you know best ^{and} in that case I have not a
word to say your judgment seems well founded

It is just so bad you can't
see the old place and the tunkies
J.R. and Norma have. They are
killing all of the old stock to
morrow & you should have seen
them. They are counting on \$1000
this yr. Every body is working hard
W & J.R. + M.J. are cutting sheep
and going to the Summer range
in the morning. Will J. Deulah
think you can stand the trip
I see no bad reason for you to come
But at best it is a gamble & a guess
We all sure would like to see you
if that has any weight. The question
how much betted are off staying
there alone. I can't reason it
out - which would be the thing
for you to do. Marie & Helen as in
S.L. waiting to come back to B.L.
you when you get there as Sam
to bed. Just go a man to work yester-
day & I've been out with him
this afternoon. Good wishes to all
and Love as ever Will.

Sundry 11th and still cloudy and
cold on the 11 it will be one month
since I left San Geandro, and I have not done one
thing to clean up for the time that you all will
be here. In fact I've done nothing at any thing
not even washed a handkerchief and have not had
a dud of any kind washed. I have but one shirt the
blue one with a ragged collar. The work shirt you
brought from L.B. not washed I wore it a wk before I left
and it was not washed since. Have it on now my ^{unders} are dirty so you see I must have a wash day soon I can't
get a sole to clean house or wash. Have been told to
bring my washing & they will do it. But, I have not started
my car yet, so washing done. Am going to try and fix
my old puddle Jumper myself & then I can get round

no water in the South field yet. Can't get a man at all
wont work for less than 50¢ per hr. and I can't afford that.
Have not done a tap in the lot yet. Ever one tells me I
look fine here goes to see if I cant do something
just a fortnight and I expect you here ^{and things as} in
a muddle Rodney & Norma are busy as can be if I dont
miss my guess they will have completed russeling & get started
up. You will have to make the best of it. I seem to have lost
my ambition. I turned in to my bed just as I left it
last Nov. and it corresponds with the rest of my ^{entire} ^{lives}
am living after a fashion. in bed a lot of my
time. Well it is home to me any way. I could life
to have it better. Have see but a few people since I
got here. This is the grumbling sheet so dont let any
one read it. All for now so Good By and
I am sending Love to you & will

Jan, 12th

All the sheep are still
scrawny & Jack is killing truckies and
every one just busy. They have killed the one
and have over 200 hens and his pinning gang
came drunk & it makes it bad for Rad. So I
had to let my man help to day. They have to
go to morrow. Say my Brief case I think I
left it there and if I did not have lost it
if it is there send or bring it and all the papers
in it. That tea I got of Dr. Swann and a box of
laxative pills (Rig lax Tabs.) 2 Bx. Ex lax - I will
use them. There are some other things I want
but can't think of them now. If you make up
your mind to come let me know right a
way as I'll put some lanolin in the kitchen if you do.

and not if you don't come
The trip will be a nice one and I
believe you will enjoy it. OK
On the Changer will make it
just find air conditioned no dust
pillows drinking cup. a pro graduate
nurse & meals - keep. Breakfast 25¢
Lunch 30¢ & dinner 35¢

This will make it very comfortable
& a sick person should get well
I will still be looking to see
you round the 23 or 24 inst.

Well you will have quite a
bunch of letters & I guess
you will get tired of so
much so will wind off

Love & good wishes to all
my friends. Love Will.
