My Dear Girl,

a pencil, for the ^{to pen or ink so} job.

others too. Got your letter today & the
last night to Wesley & got late & all
was OK. Had letter from M.A. one page
& Spring was coming that - it would
be there round May 1st - said all well
fine there. And here about the same
The D's, all are busy B. did 2 Op. on
Panderitis one yesterday & the other a few days
ago fine some Op. nearly every day
and call a lot of them. Looks like they
were making a good bunch of money

As for me about the same, I am getting
an apparatus made out of Band
saw steel which looks like it will do
just what I have been wanting. Dug. &
a man planed and the man is doing the
work & it so far seems a success & I
hope so any way. Am getting some
treatments and it also seems is helping
I soon will be laying my plans soon
for a move all depends on the tuss
& how I get a long. About Chamberlin
and Milton I can't say. I would think
he had made arrangements as May
will soon be here I don't know how
the deal is carried on

~~He~~ He should have kept you posted as to how your plans were coming. I wrote here just as I was instructed & all that was needed was her to send papers to bank & the business could have been straight-across & on time & he may have done all this & should have let you know. If he has not it is just too bad. It puts me in bad & she will a may commence action. I think the better why now is to get busy & move before she does it will save money. By doing so if they would say anything to me I could tell you & that is all I can do. So I would

advise you to write him & get him on the
job. right-away. I am here a boat this
after noon B. & Helen are shipping & M.P. &
Helen & dad with Doug. Lucel will be here
for breakfast in the morning I am
going back to Dugs & have more done &
my belt & as soon as it is done I'll
tell you a boat is - It will be all steel
& I believe Ok. Well I'll quit & see if I
can get this off most of my writing
lay round several days before going
Best wishes to Ida R. B. & love to
you all As ever Love Will,
