

Dingle Idaho

9-26-35

My Dear Nora:

Yours of 23 inst. got here today and while it was short it sure was nice to see your hand writing. I am wishing you still keep on to improve till you are your self again and can get back to L. B. It seems strange that Jean has not written you has written home several times I got a letter from him while he did not see me before he went. Was in the house and yard all day Milton called me and had me come in and he took my blood pressure then some pictures just before they left he had been down to M.A. & M.W. & some of them I suppose he has seen the real off & you have seen them all before now.

Everyone here are all well as usual. A funeral here today Marvin Dayton's girl, the one that was burned so badly when a child was buried he did die at Soda Operated on for a gut in side on the guts. She was not to Montpelier embalmed there taken to Lakeville for funeral services. and then brot to Dingle for burying a lot of bother and red tape about it.

Every body is working hard & under difficulties J.R. is going to S.L. to a turkey meeting for a day or two He was to one near Boise last yr. He has gained quite a rep. for a lusty man He sure knows his onions & keeps it to himself

I expect to hear from you soon and that you
are around in good shape. It seems nice that
Beulah will soon be home. K.K. & wife said they
would be here next year for harvest. (Wish he was ^{coming})
I just don't see how I can see things thru
this winter. Milton seemed to have a good time while
here I did not get much of a visit with him as
he was entertained by others. I was disappointed in
not seeing more of him. He wrote me he was
coming to ~~see~~ see me and I counted on a lot.
There was such a lot I wanted to talk to him about.
Well it may be I can see him another time but
this was the time it should have been done.
He must be very busy I have only had a card from Helen
Times are hard here and I look for a bad winter ^{and} year and
The Lord only knows how it will come out that is I mean
everything. Yes everyone is as old as life and in that case I must
be pretty old I sure feel that way when it comes to doing
any thing. I have a lot to do before the 11 of Nov. How long
before you think of going to L.B. & ma just how are your legs
my left one does a lot of swelling at times.
Have you received your last Gov. check? It was
sent up with the mail & I forwarded it to 910 Bridge Road
San Leandro care M.P. Well good night I will write
soon Give my love to all, and I am wishing
you a speedy recovery & keep well. When Beulah
get here it will be a good thing for both of
us, or all concerned.
Good Night with Love Will,

(Wm P. Ream)
