

Dingle Aug. 31-33

My Dear Nora:

Your letter came today and just got the one yesterday from Chas Harris. Have attended to it & sent mail in the morning. Am a bond. as usual. to night. R.O. is out & J.R. is out with the turkeys in South field first night out. He has been several da. building a coal & wood & shades. Nearly a mile S & West of the Peterson place down by the rushes where the Hopper are the thickest I was out second & fourth trips it took 5 trips taking 130 each trip he had three decks in his cage on his trailer this is his first bunch and to morrow will his old hens & toms 76 h. 6 T. then he will have round 800 hen just guessing. It quite a sight to see you should come home & see them. There were 4 big men & see them yesterday. Say they are a wonderful sight nicer than last yr. Mr. Gen. manager of the Poultry & egg co. was one of the men here & he advises killing  $\frac{1}{2}$  for Thanks giving  $\frac{1}{3}$  for Xmas &  $\frac{1}{3}$  for Jan. He said he could kill some now & he could find a market for them. Well this is enough Turkey. They all are disappointed at you not coming home. Am I glad things are looking as good as they are. I am pretty sure the co. will get the loan on your Home stead in Prop. Just try & see if you can't make the deal on 929. I am progressing nicely on things here. everything looks good for me to come clear & get 500 head of stock to feed up my hay will have between 800 & 900 tons extra the best crop ever seen 13 T. but no sale for it. Getting on fine haying. Just two boxes out side of the family

is all the help we have 8 or 10 more stacks & we will  
be done. No frost to hurt yet. but, very dry & sandy.  
Indian Summer is on. Well I am out a lot  
drive my car every da. but - dont feel any to good now  
I find an old cripple is out of place where ever he is or  
goes. Am sticking as hard as I can. There are some  
things that has to be done & I'm not sure that I'll  
make the grade it seems a lone fight. but, I know I am  
right & want to put it over. But is a?

I see a no. of people that ask about you & tell here  
as I'm getting nervous Well quit now & finish in  
the morning Good Night

Sept 2, Well I was not so well yesterday so did not write, Am  
a little better to da, R.D. & I are going to on - this afternoon. He will drive as I  
dont care to. We are doing fine haying considering such a small gang  
Has been a fine yr. for haying. Not enough rain to stop a day yet.  
Fall is here and Indian Summer the too. The sky is smoky the  
most smoke I have seen for yrs. nights are getting cooler. the driest  
Season I have ever seen in B.D. J.R. moved his breeding Chens & Poms yesterday  
& has been camping with them 2 nights will put a man out to day. His  
birds sure look good. It cost 9¢ a lb. to raise them and all over is a  
profit. if a bird weighs 2# @ 9¢ - 1.80 to raise & if he can get 20¢ a lb.  
2# x 20 = 4.00 - 1.80 = 2.20 profit 15.00 it will give him 33.00 above  
cost of raising. so he will do pretty good even if they weigh less &  
he takes less per lb. He will be the only one that will make any money  
it look like the rest are working hard & it look like they will get nothing

Well you had better arrange to get home for a short stay. I think it will  
be worth your while. I feel pretty sure you can get fixed up on the  
stuff. and I do wish could do as well on 929. see if Mrs. C -  
will take Government Bonds at 4 1/2 per - she might & make the  
change. I will be needing you to sign papers for the refinancing  
If you come I'll see if I can't have them ready by the time you get  
here. I will get both deals off Monday & it will take about 2 to 3 hrs. to get  
them back. See if you can't get here by the 10 a.m.

and then it will take me the rest of the  
time to close up by the time my ticket  
expires. Baring all preventatives

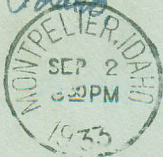

Every one is as well as usual + a nice  
Fall so far. But it sure feels it + looks it-  
too. There has been a lot of changes + still more  
coming since you left

I am glad you and Roxie have + are  
still having a nice time A.C.L.  
will soon be with you. He sure is  
having it nice since the changes were made.  
He can travel cheaper than I can or anyone  
else I know of. How many did Ida have in her  
family on her vacation. I am anxious to know  
you only mentioned Bobie. Is she going to change  
her place + have Mrs. Shackett tend Rickie  
this yr.? Did she enjoy the vacation? +  
where is she teaching this yr. or does she  
know yet? Tell me how her Lord + master

is operating. It looks to me he will  
have to change round a little or he will  
think so, I'm interested to know ~~to~~ change  
his old grab - is getting stale. & he will be  
getting something a way back in his head tell-  
ing to do something that the way he does  
business. Can't you get her interested  
in helping pay out - on 929. & have it for  
her home. She ought to be able to fix him  
enough to put it over. That - will be a  
~~but~~ the only way she can get - a home  
He will never allow her to get - one, so she  
should take her next - 2 yrs. & fix for her &  
Rickie. If she would just - lay her cards on  
the table I think she could make it - work.

I am thinking she has gotten some ideas this  
Summer & should use them - Well here is  
the end of paper, so am signing off Give my  
love & regards to Ida Rickie & Roxie and  
Love the same to you Will.
