My Dear Nora:

yours at hand last night and we (Ida Ruck and I) were glad to get it and to learn that you had a good trip and was in plenty of time I sure feel sorry for Wesley Mamie and the Kiddies and glad you went. They must feel glad you are there I would like to have been there to, but they know the reasons why. The more I think about Lane the more I feel for them. I hope all the rest of the folks are well & keep that way and that you have a good time while there and not get sick your self. I am working a little every day, have the back yard in good shape. Hoed, mowed and cleaned up also watered to boot same in front. I fixed Wright's mower up in good shape and he mowed the front & Alce mowed the back of theirs & I got a man to mow our back for 25¢ while I did the mechanical work so it come out OK, and all looks well. The machine is a good one & runs easy & does good work. Every thing is growing fine The Juliett is blooming not so large but is beautiful all rose are fine. You will have been gone 1 week in the morning, time flies & how every thing has grown. Have cleaned up the chicken pens & ho

them & they look good. I get up before Sun up & move round a little to day I am just setting round & writing a little I am hoping you enjoy your trip. Had a letter from B — and she was accepted at the Co. at L.A. but is not going to take it, and will remain at Frisco. She could not get in till Nov. & could or would not wait. While writing here B. T. G. called up and Ida ans. you see I wrote him about the check she opened the letter & raised Hell. I wrote him in such a way she did not need to know about it — un less he had put her name which he must have done. She just bucked all night — last night so he said this morning, Well he should have done as he said he would & she would have been none the wiser. He told Ida he would give her some money next wk. and did not need to worry he had the check (Why the Hell does he not send it.) It seems a woman got it back & took it to there & she got it and he lied to her about but she got a hunch & just busted. Well it is their troubles. Well all is the same as when you went. Rickie improves every day & Ida is not feeling so well the way Bob does. He was at Owens mouth Thu. night & is off to day, plays ball at 4 Oc. to da. by rustling I'll get this off this morn. I would like you back when you feel it — the time to come. Elmer B. was here Mo. and is released going home Mon. gives his fair well talk. Sun. wanted me to come & hear him. I told him I knew what he would say & did not feel like going. He agreed it would be the last time we would meet so shook hands & he went. 2 ladies had him in a sofa taking him round so that is that & I am glad it is at an end with him. he got to be a boar with me. Give my love to all tell them I would like to see them. Love as ever. Will.
in a hurry
