My Dear Nona:

your letter came to day and was glad to get it. I wish your dream was true I would like to have been there just as you dreamed. It sure would have been nice. I asked in one of my letters, if you really wanted me to come but never answered yes or no, but, I may be coming some of these days can't tell. I have not been out of the lot but once since a wk last Mond, + MA. came ~~of~~ over and got me 6 Oc the night - Clark went Home Last Tues, + brot me home at 8 30 it snowed near 1 ft - + has been foggy every day + cold K.O. has been sleeping with me ever since he was sick but he is not the bed fellow you are I have found none better than you

It is beginning to seem a long
time since I left L.B. but I must do
more before I come I feel so impressed
you know dreams are the reverse of
I have changed a whole lot - & it seems
from bad to worse. You seemed to
have had a rather unpleasant - time the
last-trip I was there and I sort of
hate to impose on you. But, I must
get-thru and now and make some
change I am getting thread bare for
credit - so I shall have to sell the
place or something else the cattle
are nearly all gone now and I am not
out-of the woods yet - If I could
only get sound better than I can I could
get-thru quicker & better. Things are not
coming & going as I use to plan & it worries
me not a little but a lot. but, some day it
will be thru whether done or not

Had a letter from Ade, a nice one,
I don't think I will be going by way of
Trisco on account of the trip, changes
Subways & much longer rout. I'll go
back that way if all is well.

Well J.R. killed a fine Tom and I
dressed it & Norma cooked it & we
had dinner about 7²⁰ to night - all
she did was make dressing & bake a pie &
2 To slow for anything just us 4 was
all that was here & I tho- of you &
wondered if you were all alone as you
said you were not going to Choquette for
dinner. Wish you had a good time
when ever you were. I tho- of you &
wondered. Well I am cold & the fire is
low & I am cold so will quit
Love and good night
Will
