

Wing 5-4-39

My Dear,

Your letter from M.P.'s came today and it is good to know that all is fine. I wish how I have been here since Sunday and have been a round much just can't cut the mustard and it looks just like the last yr. every thing is and has gone against me and I guess it has got me at last - if I don't turn for the better it will be of no use I was at Milton's till the 29. got here the first I was there all the time never got to Wugs' once or to San Francisco once did not get my hernia taken care of and now it is worse than last fall. If I had not have come it would much worse. The trip is the worst I have ever made any where and I don't think I will ever make another one over that row - if I ever go again of all the things I have so long counted on will more than likely never be finished. I got the piece of land from Quoyles plowed by J.R.'s big tractor I had to go out & see

done and burn what dry weeds while  
they were blowing I got so sick standing  
in just-but-quit. I crawled thru the  
ditch at corner of lot by laying down  
flat & getting up after getting thru and  
in just-my-side again. Art, <sup>2nd</sup> & Wiles.  
Gregs met-me in Ogden & took me to  
their place till train left. I hurt-my  
side both getting in and both times and  
eating beside which made the rest  
of the trip tuff. got to Montpelier and no  
one there to meet me had to phone &  
wait till R came for me go-home  
had a cup of coffee with Norma & went  
to bed and RD, never knew I was home  
till next morning I was getting up  
when he came in. Have not been  
North of house to see my little trees &  
it seems I'll not get sound much  
for some time and lot dry & can't get  
any one to work so it will mean I'll  
be here till I quit-for good for I am not  
going to try to go to Calif any more  
If I had followed my plans I  
would have been a head or dead either  
would have accomplished something

3)  
now here I am to late to do & more than  
two times as hard. To me it seems that I  
can't get a one to do very much of  
any thing for me if they do to me it  
seems like I will never ask them a  
gain. You see I was at Miltons  
along time never got to see Pusnik  
nor had a treatment 3 or 4 diathermy  
on my face & they did me a lot of good  
a good treat-ment - would hope  
cured or at least made it much better  
Well it is all over and forget what I  
have makes me so sick and I am  
getting very dizzy most of the time  
and nervous M.P. gave me a  
treatment for prostatic trouble & said  
it do till as the gland was not at  
all bad I had the las the night I  
left and that was like on the plain  
not so good. Well not very long before  
I can tell you now. J.R. has just  
come in and taking a treatment  
of shaking so I'll quit till morning  
and will soon be in be & the sun. I  
is just down so good night with love  
M.B.

Friday, and K.O., will soon be here to take  
the mail. Well all things are going well  
worldly for most people here Sun  
shin + Spring is here sure  
I am feeling some better to day  
If I keep on I can do something  
next wk. The trip almost got me  
The freight I sent - got here in good  
shape & the shaker is working  
here in the kitchen and J.R. uses it.  
most I can't reach to plug in so  
I can look on & see the rest get the  
shaking. Jaw loosening weight-  
now & have a change of cats

Have just now some duffly spells  
when down & as turn out to  
get up it is miserable but I think  
it is my belly more or less

Tell Dda Ricky & B Lee all  
I send my love to Sammie &  
you and every one that speaks  
of me give them my best regards  
and sending a letter to Bill  
if I don't get too nervous to  
write You I've gotten all your letters  
& ans. all to when is your letter  
Love Will.
