Dear Mother,

I'm glad you and aunt R are together again this summer. I hope she can stay there plenty long. I'm sending \$20.00 to help out where you need it. I am doing well enough with the practice but don't expect too much as I'm only working until 1⁰⁰_{PM}. I never have been in complete sympathy with people who work them selves to death for money and let everything else go by. I find it quite pleasant in the new office. It is clean cool and quit plenty of parking space.

I think you are quite wise in not going to the ranch this summer. Every other summer is often easy. The strain isn't worth it. The boys are too busy in the summer to visit much and there is nothing else to do.

I didn't expect Dad would have his treatment as the success depends on keeping the truss on and you and I know Dad wouldn't keep anything on even if his life depended on it. He isn't built that way. The best I can hope for is that he keeps in condition so he can have an op. if it strangulates. Doug & Milt may have hopes but if they do it is because they don't know him.

Dad's letters have been more cheerful lately but the place will get him down after he has been there a while as it does everyone else. I hope it can be picked up and paid as we planned. It can't unless some one takes charge.

Rodney had a siege & I've written
to advise extreme care or he will never
get over the high heart. If it were I
I would be worrying more over him
than the whole of Bear Lake Co land - He
really won't be set back a year as he
was unable to get into a medical
school anyway. It may be a good
thing, give him an excuse for another
year.

His letter & Norma's letter didn't sound
discouraged and that's the real thing that
counts - If he is careful he will be O.K.

It has been so hot here that I've
been completely collapsed every afternoon
It cools towards night so by am I
am ready for work again -

Thanks for the diet. I am putting a
diabetic pt on it next week and I hope
it will help her. When I think of how
Aunt Rosier has done she should be help-
ful. Aunt R is Sybil is still planning
coming over. The invitation still holds
good. She would be perfectly comf-
with us & I know she would have
a wonderful time.

Well more next time. Write when
you can. Take care of yourself and be
reversible. Don't let too much go to work
J. B. Beulah.

Dear Mother,

We were glad to hear from you and that you are feeling good and that Ida is back. I wished you here many times this summer, Mother, but you will have to come another time.

I am waiting for Ken to milk because we are going to Montpelier to a show. He have not been to any shows so far as Ken has been too busy with haying, and rounding up cattle.

Dad, Lois, and I, canned apricots yesterday. We have some lovely raspberries, too but we like them so much, fresh, that we are eating them that way. We have eaten 9 quarts in a few days.

It was very cold for a few nights - we had frost, but now it is warmer again. Tibby came out of it lucky, with only a slight touch on his string beans.

Had any mail come for us?
I suppose something from
Bank of America or advertisement.
B. of A. send my statements.

I stuffed a bird and we had
a nice dinner yesterday.
Mable, Mitchell and the children
came in and helped us eat
it.

Milton was very happy
to be on the Ranch again. He
was singing around here
all the time. You should
see how fat he is!

Norma is busy canning.
She washed yesterday too, and
the yard is full of clothes.
I washed over at "our house" and
it was fun. So far, we haven't
slept in the tent. The mosquitoes
have been bad.

Everyone is fine -

Love from Ruth & Ken.
