My Dear:

Ida & kids are leaving for L.B. in the morning. I would have gone Sunday but for the double Holiday & traffic was or would be too strong for her & J.R. & Norma got to stay over & celebrate Norma's Birthday yesterday and they had a dinner down stairs & a big fire in the fire place fixed turkey & a good meal & all had a good time. But for the usual failing eat too much as usual. It seems it will be O.K. by dinner to day. We all wished you was here just to Bad you were not here these chances does not come so often. Norma & Ida Reams are or will be with here they are coming for a short stay in L.B. and see you for a visit. All are well and at hard work as of the pass. When Ida tells you about the the old place and I think you will come up & see for your self. I think you will enjoy it. And the May Milton is here in the

Country and will call on his way back
to Cal. He will get Jacks Hole for a few da.
to fish. Jo + Clara were here 2 day + had
a good time so they said

Haying is in full blast - and will
be over. Heavily this season but; not
so much hay is my guess. but better
quality. J.R. is not so well
all of the rest are as usual
Weather is off from the usual it
is some what cooler + the indhawks are
a plenty + so are the green heads

All in all it seems there will be
some profits on the ranch this
ys. and by the way send me the
news about the Primaries so I
can get my vote in + be all OK
when the election come in Nov.
next. Am hoping the Old Fols's petition
goes over OK. Ed's house is coming
on time and he has all of his hay up
+ helping the others put theirs up. He is
feeling fine so far but - doing many hrs
work a day.

This all for now I da can tell
th you the rest when she get there
Love as ever Will
