

Sat. night 5-21-38

My Dear Girl

I got both your letters same mail and it was good news to me as long as you are well & are having as good a time as you are that is a lot of news & good too I've some words I am better & other's ^{ma} so good the tuss is fine and I have no bother can get round a long ^{time} between any bother and I never have have then awful sick spells I can eat well & much so I may be gaining a little but I must have some strength. S O & R D have given ^{me} every day & I eat very little. Have been busy all day in house & down with K L counting logs & poles while he is pilling to keep them from rotting. Can't get a man yet - & I. seem that every thing is going not so good I am a whole lot more nervous than I have been at times so it is not so good I have been raining & snowing every day for the last w.k. but every thing is growing fine & a good crop is expected. But we

have all in yet. I imagine that your
stuff must look good and augh-
& matter well & large, plenty of
water will do the trick. Tell me
when you expect to start - & I'd like
and the new J.R. will have 6000
potts soon & he's working as hard
as ever so is Tom & all are well
Kids all are good strong & healthy
all but J.R. & he sure does not look
it (Marnie has my bed & will
keep it till the first - at best - then
she will have the cast off & I hope she
has a good job. She enjoys the bed
and be wheeled all round room
& & the phone she calls me up every
day. since I got the phone in
Mon. The well drillers will be here &
put the well down in about 2 1/2 days
just east window in kitchen. Have
not done much so far but hope to
to get more done the next 2 wks.
If I but can keep well I is now
or never by me. The quitting is soon
coming for me & I see it without a doubt
by me & my Shy Dams at bottom & quit
send love to your mother & I will
