My Dear Carl:

I got yours 3 in 1,
quite interesting, and as I
have a little time I'll ans, as
K.O. is milking & as soon as he
gets thru we are making a call
He was to have W.W. start on his
grain today but he had a break
down & will not start till to morrow
He is getting on fine & feels better
every day if he bus could get
a man he could make his
work move OK, as to me jus-
the same. Have got to get busy
regardless. Am expecting B &
here before long coming via,
Portland & Spokane, Boise
We are having quite cool
nights now, but, no heavy frost
Mable not home yet, & J.P. is
working hard has quite a little
help. He may be off to school by

time it starts. (S. L.) as I am
guessing. Don't tell it for facts
its only a guess.

Tell Ruth I'll drop her a line
soon & her read this all
same as I would tell her
Tell her the foundation looks
swell, a good job & K. L. is
doing fine. He will soon
be at the apples.

All Crab's folks will have been
& seen you by the time this
gets to you. He is with all
stayed over night. I think Crab
wife are swell, quite an improve-
ment on the Old stock.

Will make final prog. Sat. or
Sake. Hope it goes well.

By the way I bot-anelectric range
to be put in next - may later in addy
now I can get the use of the gas. B-
bot. it is swell. She baked one pan
of biscuits - good. Give my love
to Ruth & family & love to you.
Will

Frid. Well I forgot to tell
you to get - all of my
letters & papers & writing
together and send by
parcel post. Don't omit
any thing. There are a lot
I could get a long with
out - but no one can tell
what it is so send all
and as soon as you
can. Well This morning
the Electric man is
now putting in wire
and connecting for a
range so when you
come home there will

a 1938 latex range instead
of the old — & I hope
a refrigerator also

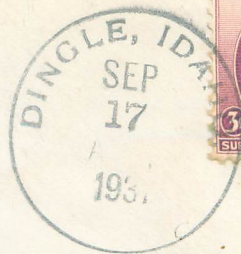

I am now beginning
to move & try to
do a few things I have
been wanting all
Summer. Hope I can
stand it

R.D. is sending a
sheep to Ruth so this
all now

Ever Love

Will
