

4.
a case on her.

I sure would have liked to see you when you were here at Christmas.

Why didn't you come over. I was sicker than a dog with the flu, but I could have talked to you a least. Are you coming home this summer. If Helen comes out this summer I expect you to send her back for one more year. That I will be through. I expect an answer within a week or —————

Love

Edith

P.S. The only one that is glad our that home nursing course in Coach. No don't have to stop our fight for 5 weeks -
me + Fay Sharp
and
Edith

Montpelier, Idaho

March 16, 1944

Edith,

Well how is my old friend? I'm beginning to wonder if you are my friend. The last letter I received from you was the 15th of April in 43. I wrote you two after that but you never answered them - must have a boy friend -

Are you still working in the ship-yards?

Schools the bunk this year. With the exception of Helen and Thimela, there all old bage.

The study hall teacher is the worst. Money colored hair, scowps face, walks like an old plow horse, needs a new coat + is about 75 yrs.

Then comes the type teacher. The first one was Payne + I guess Helen has told you about her. Then we had Mrs. Bell. she was good + I liked her + then they imported this old Bag Weyer. She's just a big over grown cow. (5' 10" 290 lbs)

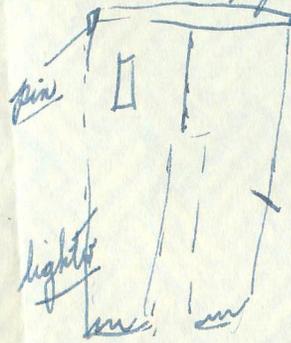

This probably out to day because they got
little of that dirty of her. (catch cold)

But when we really have the fun in
Chemistry. We have Douglas Perkins and
we raise hell in there. Every day some one
bring something to eat (3 of us). So far we have
had, candy (all kinds) orange, apples, coconuts,
potato chips, + me + Beverly Peterson brought
12 bottles of Pepsi Cola. When let us keep it
in the Home Ec. ice box until class. (we've
gone her a bottle) ^{super was good} Doug. is quite the guy. every
time Thelma comes in for the absent slip
he drops the chalk + his book, can't find the
slip, and after she leaves it takes him ten
minutes to find his place again. Then she
won't believe me when I tell her, he has

With gray hair - pulled up on top + a mess.
With her I decide to quit type. I was getting
gray myself.

They cut our P.C. class out for four weeks
while we take a HOME NURSING course.
One day we have a Red Cross Nurse - sh - long
white socks, dirty uniform and a MESS. The
next day we have an other old Reg.

Yesterday she gave a bed bath to Jean
Halbot. She's always complaining about some
vertebrae ^{being} ~~being~~ out of place. so the nurse had to
wash her just right or she would faint.
These are her pajamas (really old slacks)

people That was the first
darker time I ever enjoyed that
class - sh before the class Jean
went up to the nurse and said, "I haven't taken
a bath for two weeks because I had the varicella,"
