

Wanted of them.

On the fourth I irrigated the ten. We went to the parade in the morning and to the fireworks in the evening. Everyone had a grand time. Nothing was as big as in Long Beach but what there was was good. Dad and I were going to fence an island out south but a fellow from St. Charles has taken it up. We will fence another one now. I think Dad will buy a hay outfit. He will leave to unless he works with Mitchel and I don't think he will. I don't think Mitchel wants to work with him.

Tell everyone hello including Beulah Lee. Lots of love to you and I will try to write again soon lovingly, your Grandson, Sean

July 18 1935

Dear Grandmother,

I received your nice letter and have been going to answer it ever since I got it. I have been sick in bed a day and the next day I pitched hay all day even though I didn't feel so good. I have been working since and now I feel as good as ever.

I wonder if you saw the total eclipse of the moon on the fifteenth. We did. It was full moon and the eclipse was total. It was surely a sight. I stayed up until after it was all over.

I went to Georgetown Sunday with Dad. He took Clifford Szymon the hired man, and we saw his folks and friends. We had several

flats and bought a new tire.
We were going to see ~~about~~
about buying a riding horse
but the horse and owner was
not there. I think we will go
again soon. The other day
Clyo Dayton and I built a
raft and rowed across meeply
Lake. We used the raft to
work on in cleaning out a pipe
to drain the lake so we can
hay. We couldn't get it all
cleaned out. There was sure
a strong suction and we
were careful not to fall in.
It would just about take a pole
out of our hands. Grandpa
watched and helped build the
raft. He is getting along fine.
He was surely disappointed when
you did not come with us.

He doesn't ~~feel~~ feel so good
about Rozzy leaving you. Why
didn't Alta let her mother know
before she went down to Long Beach
or else wait a little instead of
such a rush.

I am sorry about Mrs. Jandell.
I guess I did not see Mrs.
Wynner.

I wish I were down there to
help with the yard. It is too
hard for you to do much. I am
glad you are taking your bath
and walk. I believe it is doing
you good but don't overdo. I
wish I could see the neighbors
and say hello. Tell Don & Joe
hello for me.

I received the negatives and
they were in good shape. I
am glad you got what you
