Dingle, Idaho

W. W. REAM, PROPRIETOR  
LICENSED SURVEYOR

June 18/1941

Dear Mother,

I got the plans for the vault a few days ago. They are not complete yet, that is I'm putting in a note that more details would follow. We could have start but I have had to do fencing at Pine Springs and for about four days I have been too sick to do much, five I guess. About two or three more days and I will try to start the work.

We have surely had a wet season here lately. For about two weeks it has been like old times. Every time I go to the ranch I get wet. But the crops are doing well. The cattle have bothered a lot.

We had quite a time seeing the kids graduate. They have not come home yet. Helen is in Arizona, and Jean in Salt Lake. Hope you are all well. Will write again when I get things going.  
Love Wesley.

Thursday morning.

Dear Mother Beane —

We hope you and Ida will soon be able to come up. and that they will have good luck and get the volt ready soon.

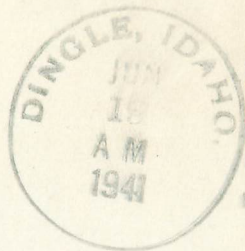

Shesly has been, and still is sick but trying to fence and do so much when he should be in bed. I have been going up to the ranch every day with him to try and help. He seems glad to have me. I am still tired — the roads are awful they are working on Indian Creek — you can hardly get by. We are sure proud of our graduates this year. Have had so many thrills and a grand time. I wish you could have been with us. Will tell you all about it — when you come. Mother was glad to see us all. She seemed a little better. Don't know when she will come up here. It was sure hot down there one day. The rest was cool for my benefit — I guess.

Warren seems to be a little better. But we don't think the Dr. knows what the trouble is. He was in the hospital nearly three weeks. We went to see him last night. He looks better than he has. But he can't sleep or eat much. and still has a lot of pain.

We think Ruth's hand is getting better slowly. She has a treatment (electric) nearly every day. Well Shesly is ready so I must go. We take our lunch and have a good time. The wild flowers are lovely. It is a pretty time at the ranch.

Lots of Love Marnie.
