

I have not said anything to John or Rosie yet about coming over, for I have not had a chance. Lucern here is ready to cut. John is not working at harness making this summer. He is working for Solome, gardening &c. Hite is talking of coming over to Bear Lake this summer. He does not think there will be much brick work here. He told me to ask you if there was likely to be much work for a mason at Montpelier.

I was invited into a strawberry patch yesterday & had all I could eat. Then I brought home a little bucket full & the boys had all they could eat at one time, we all enjoyed them & wished you could have some with us.

The children are all better. The baby has not cut his upper teeth yet. I believe that is what makes him so miserable.

Well Will, I will quit for tonight.

for I am so sleepy & I must
get up early & wash tomorrow. I
will not post this for a few days
& then I can finish it. I shall
look for another letter from you
in a few days. I have wondered
today what you were doing &
imagined you were writing to
me.

Good Night dear Will - I am
so sleepy.

June 24th

Dear Will I will
write a few more lines, so I
can take this down & post it.
Roxie & I are going to walk down.
I want to take the baby to see
if his teeth need lancing, they
are so swollen. I have caught
cold & cough a good deal. It
is cold enough here to wear
flannel underwear.

Mary Gater is staying over here
to Esterholt's with Eph. I have
not seen her yet.
