Dear Mother:

We were very pleased with your nice card & note. Thanks for remembering us. We are so happy you are feeling so well.

Needless to say we are very happy that Forrest has been transferred back to California where he is expected to attend a school of engineering.

Marilyn & Forrest's girl Jo Ann are leaving tomorrow night to visit him over the weekend.

I suggested that they call on you & maybe you have an extra bed. I know they would be welcome. Maybe, if you have 2 beds not in use, Forrest & his friend could stay Saturday night.

I would not want you to put yourself out above all no extra work. We would feel very secure if the girls were staying there. I'm enclosing a little check to cover

extra actualness incident to
this visit

I sound like they are only going to see
Forest - whereas I am very anxious for
them to visit & become more acquainted
with you folks.

We are as well here - No special
changes taking place.

We saw Milton family today & they are all well.

We have not had anything from the
Islands either - but still hoping for the best.

I thought about you a lot on Oct 29th
& intended to write you but mind it all
more thoughts about Nov 11th - Most pleasant
thoughts - We have been married now 20 yrs
Time surely passes quickly.

Some of these days, maybe I'll be able
to take a run over your way.

If for any reason you are not able to
accommodate the girls we will understand.

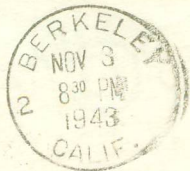

Thanks a million

Lovingly your kid

Love you & your folks for us all.

Douglas.
