Dear Mother Pearl:-

We think about you very often, but especially on Mothers' Day. We do hope and pray that you will have a real pleasant day. We are wishing we could see you and express ourselves. I am sending for a subscription to Sunshine Magazine. You seemed to enjoy it when you were here.

I seem to get busier - along with Douglas. I have a Megress helping me today - the first help - except the children + Father - since Nov. - when

Dear Mother:

We all join in extending you best wishes
and our love on this Motherday. Wishing
you many happy returns of this day.

Father seems to care not lack of
interest or love.

I think of you every often but it seems that
days come so fast I find I've rolled by traps
& pounds & all my duties have not been
card for.

We are all well as Lucile has already told you.

Trusting you are all well & happy I am

most lovingly your kid

enclosed find what I like - just to please you
with thing you may like.

I had to discontinue the Jap.

Father left three weeks
ago Sun. He was feeling quite
well. He is with Louise now,
but will return to H. plr. Sun.
It will be quite different for him
there - alone. I sure do miss
him. I could be quite free
occasionally when he was here.
He could take care of the Bab.
Feed him, dress him etc. and
keep track of him in front.

The children are all well -
busy at school. We often think
about Ida & family - give them
our love.

Love from all

Lucile
