My dear friend it  
is with much pleasure I take time to  
write you I am at my old friend Mr.  
Cook. Arrived here last Sat. evening  
found all well and happy. Will go  
to Ogden tomorrow. Have not  
called on all of my friends yet.  
I am well accepting a cough which  
is very annoying has been getting worse  
since yesterday. I have had a good  
time the people were glad to see me it  
seems <sup>nd</sup> want me to teach school this W.  
My friend Mr. F. L. is with me <sup>nd</sup>  
has been since we left Logan City  
He seems to like the folks very much  
<sup>nd</sup> takes well. We will go to S. L. City  
the last of this week

Will Vera I have had many temptations since we parted, could not resist them all. I'm sorry to confess but will do better in the future. The great sin was kissing some girls. I did it out of curiosity. <sup>and</sup> if you will forgive me this time I will try <sup>to</sup> not do it any more. I wanted to see if there was any difference. am satisfied now. The girls have been making wax flowers to night for a wedding next Friday. They are now popping corn. They want us to go to the wedding. We may go I can't tell. Oh! I must stop to eat some corn will finish soon. All of my corn is gone and I write. Frank's is having a good time telling about his yellow snow drops and how he pops corn. He has made a ~~lot~~ <sup>lot</sup> of the girls. my chancels <sup>are</sup> quite slim now but I don't care. I have not seen Miss Howard F. yet. Her brother has been looking for me for sometime. Will go and see him to morrow eve.

How many times have you been to the rink? We were at the Ogden rink on Friday night Oh! we had fun you bet there was some good skaters there. far better than in Logan. we spent from seven until ten in the rink. then we returned to our room in the Chamberlain House. On Fri. we my scarf was express to Logan I went to ~~the~~ <sup>the</sup> express off. but it had gone to the Express Sat. I went down but was too late for the train <sup>so</sup> it was sent to Logan. I am expecting it to morrow. I have had more trouble about that scarf than it is worth. I was to see the old school house Sunday it looks the same as it did last winter. chills & cold it has no inviting qualities about it but when I stop to think I almost wish that I was in the school room again but that day has passed I am afraid never again to return. Hope you are doing well and perfectly satisfied. Will see you soon. It is getting late and I have not given you the principal points since I left both good & bad. You will find me in Ogden until Mon. next.
