

Dear Nora I dont think I can think  
of any news to tell you I would  
rather have you hear then I could  
talk all about old times & I am sure  
we both would be interested.

Forgive me this once & answer soon  
I think we would be more interested  
if we wrote oftener hoping this will  
find you feeling better remember  
me to your husband except my  
Love for yourself & kiss the little  
ones for me Dave & Ma wishes  
to be remembered to you

I remain ever your loving Friend  
Maggie

Mrs Nora Pease

My Dearest Friend

It is now Sunday & Dave has gone  
to church the children are out, <sup>playing</sup>  
Baby is gone to sleep. so I thought  
it a good chance to answer your  
most welcome letter that I received  
so long ago. I intended sure, to answer  
right away, But was called to Payson  
very suddenly to attend to another  
Aunts Funeral. Ma's only sister died  
with pneumonia very suddenly. &  
then it seems when one has a  
family there is so much to do  
that I do get so neglectful I'm writing

Dear Friend you cannot imagine how sorry I was to hear of your sickness & also was more than surprised, to hear that you had another baby boy, I see you have been trying to catch up with me as that is my number, only I have had too girls & too boys. Ethel is getting quite large she will be six next month & Georgie is very large of his age almost as large as his sister he will be 4 in September Baby is 14 months he is beginning to run alone & so full of mischief I must try & have there pictures taken this summer if I do you shall have one & I would be more than pleased to have yours & the children.

How is it dear friend that you never come down for some years, I

should think that it <sup>you</sup> could have a better chance than me as there are cheap trains during conference you could have such a nice little visit, I don't believe that I ever seen so many people to conference before I suppose it was on account of placing the Figure of the Angel on the cap stone of the Temple it was a grand affair I suppose you seen all about it in the paper. When you come to Logan again you must try & come the rest of the way. My Sister Etta was married in December she lives just a block from me & Ma lives next door but one to me on 11<sup>th</sup> East. It has been very cold & stormy the fore part of conference but it has cleared up now & has been beautiful for about a week & it is almost to them.
