

If I should come  
down on the 24<sup>th</sup>  
would you spend the  
day with me or not  
if you will I will  
be there if not I shall  
go to Ogden  
from  
Will

Bloomington I deduce  
July the 8/84  
Friend Fred  
With anxiety I  
have looked for a letter from  
you, but failed to get one, This  
makes 5 or 6 I have written  
& not so much as heard from  
you. I have thought you were sick  
then thought you did not get  
them & last of all that you did  
not want to write any more  
Now if you are tired writing,  
remember your promise and tell me  
so. It would be a hard to bear  
to get a letter wanting to close the  
correspondance, but I would as  
have have one as to be kept in  
suspense as I have been the last  
two weeks. So I would not quite

But it is of all to look for any  
thing you are wanting & that you  
get it. If I don't get an answer  
with in 6 da. from this dated  
shall come down or send a letter  
in care of some friend that will  
give it to you personally. I believe  
you have not gotten - ~~think~~ or  
you would have written. If you  
have & failed to write I -

Well business is not good  
this week. I am getting discouraged.  
Had a letter from a friend in  
Los Angeles. also one from Mother  
I am in the notion of migrating  
rather E. or W. for a change for  
a short time. I have never had  
such feelings in my life  
as I have had since I come  
from Logan - I don't know  
whether it is Love sickness or

not, if I thought it was  
I should seek a speedy remedy  
at any rate my life seems a  
burden to me. I fear some  
cause. Have the Trustees suspend  
did your correspondance with  
me. (That other absurd idea) or what  
is the reason you do not write.  
Be careful now don't fool me.  
My love for you is getting  
stronger. the longer I wait the  
stronger I love. I shall endeavor  
to control it but it gives me  
pain to think you might  
prove false. Not even six  
months ago I could have taken  
the engagement with out feeling  
as I do now. I'll not write any  
more this morning so Good Bye

Yours Everlasting and Affectionate  
W. L. R.
