Dear Wife Sara

and babies

I've just
come home from Paris and
had a lunch The place looks
lonely no wife and babies to
greet me and I feel more
uncomfortable when I think
you riding all day in the hot
sun and I say to myself that
life has been very unpleasant
to you since our union regarding
a kind of pleasure + luxuries
for my part I care nothing but
I do feel for you + ours I happened
in the court room just as court was
dismissed + the judge had just

given a decision on a divorce case
It was this that the man & wife should
go home & make up & live together
for the sake of their children
when he had finished the young
woman just boo hoed right out
& kept it up for some time I looked
at her & thought how different you
were from her. With our dark
prospect I am inclined to think
a ray of light will break in
& gladden our hearts before long
I have finished all business
regarding Larson's injunctive today
and am inclined to think that
I will gain Grimmerit &
Howland came up & done much
better than I expected I found
several incidents that will go
against him I may go to Paris
to morrow I am not sure but
I am anxious to hear how it
will terminate

The home stead I had no trouble
in getting witnesses I have
G. Clifton Jennie Grimmerit
Will Lindsay & Howland all
going willingly & the prospect
is good to break is all
right If I should go to Paris
to morrow I will give you the
results of the injunctive
The day I left you in M
I got the subpoenas & got home
a way after dark & next morn-
ing I saw Clifton & Howland
& I helped Jerry haul hay
to day I shot Logan & went to
Paris I had a headache to night
will close now if I dont go
I will send this to Paris to morrow
I send to Presto in care of A-
L I send love & many kisses
to you & Babies I see Nestle's B.D. here
on the door & it makes me feel bad for
the little fellow I charge you to take good
care of my boys if you do nothing else
