recd, to night - I am glad to  
hear from you and that you  
are well. Your other letter I  
ans. the first of the week but  
have not sent it yet as I  
could get no chance. Regarding  
your certificate I told you in  
that Will see to it when I come  
over. I think I can make arrange-  
ments all right with out you  
going to Malad. Mr B. as I  
have stated has a big girl weighs  
15 lbs. Mrs. Surrine has a boy  
came yesterday in both cases

all are well as far as I know.

So you want Tade do you? Well I will see when I come over we can talk about that. No Larson has not done any thing as yet he demanded payment is all but he will have to sue & get a judgement by that time I hope to have all in good shape providing I cant beat him but I think I can beat him on a point a proposition of law. Well I take my own food & do my own cooking in fact I do every thing for myself & am doing splendid but it shall soon come to a close now & I hope for good I think I shall be in P - before you get this if you dont get it quicker than the rest, No the ducks are not all alive the one I told you about got fast and died & Birds have not come farther yet I believe I will have to take the

over. Your saddle is all right it was not brought home for 2 or 3 weeks after you left I told them several times to bring it & I guess they got mad I dont care if they do. Thanks for your kisses they were a long time on the road & are not as good as if your lips were to mine this moment. I think I could appreciate a kiss now for all it is worth if not more. Maggie P has applied for a divorce and that offle she wont go back to Marian I dont think she can have a very good cause I have heard of none & I believe he is as good as she is when it come to that. About your teaching I can tell you more when I come over at present you will have to go your length on this term & all I can say is may God add his blessing to your efforts & all will end well
