

the children & then I get so
sleepy I can hardly study.
The Consolidated Co did not
do any more about the stone
father took out the door frame
& put the stone in out of the
rain for it has rained ^{ever} ~~every~~
since they left it setting here.
I telephoned them from the
O.C. today & asked them when
they were going to set it up so
they sent someone up to set it
up. The stone is made after a
cheap job in the way. I should not
have taken it at all but I knew
of no better way. The baby is
not very well she has been
bothered with the summer
complaint ever since I came down.

Logan Tuesday 12th
Dear Will - I just posted
you a letter ~~you~~ yesterday - but
I will try & write a little more.
I am tired to night - I went to
school to day & visited the
classes I thought of joining
I think I will study in the
advanced class in German
the beginning class in Algebra
(that is it was a beginning class
at the first of the term) & Literature.
It will be quite hard for me
for I have forgotten so much
& the classes are so far ahead
of me. but I do not want to
start at the beginning in
German. The children got
along pretty well to day - I went down

town after school & saw Seth
Langton about the stone - for
I had word from you & also
from Kester that it was here
they brought it up this after-
noon but it would not go through
the door. So they said they would
go & get some one to take the door
frame out, but they did not come
back.

Yesterday I stayed with Roxie's
children while she went to
this ward school & took Leroy
& Ida, to see if the teacher
would have them. They wanted
to go so bad. She took them &
said she would see Miss
Hubbard as, They went two
yesterday & today & Miss Hubbard
said they were too young - Ida
was so taken up with school
she loved to go. I wish there

was a kindergarten so she
could go. The boys all like to
go to school very much - even
Lee.

Good Night.

Thursday evening

Dear Will, I will try & write
a little more this evening - it
seems like I have to study all
the time I can get & then do
not get my lessons as well as
I might or ought to. I can get
no German grammar here
I hardly know what to do. I
have been studying the German
reading lesson & the Algebra
I have not bought the books
yet that I need for Literature
I need about 12 books for that
I have a notion to let that
study pass. I can not get at
study till late on account of

he mentions his head & hip joints
being most painful, I will
see George letter again until
he is better. I will write a word
in this in the morning to say
how he is.

How is your health now be
you tell me when you write
I hope you are all well at
Give my Love to Willie Estella
Lavinia.

The children all join
in sending lots of love to you
Your Own

Wesley is a very little better I
think he will come out all
right.
H.

Last night it snowed several
inches, the trees were nearly
broken down this morning with
their heavy load. It is gone
now but the storm does not
take over. Oh Will I am so
lone some to see you tonight, it
seems like the longer I stay
the more I miss you. It
seems like I have been
here so long, I do not allow
my thoughts to dwell on it
much. Well I must quit for
tonight.

Sunday the 17th 1897.
Dear Will I will try & finish
my letter so I can post it
to morrow so you will get it
Tuesday - We got moved in

this house yesterday. Rose
washed here & I straightened
up things after school.

I sent Wesley down town
after a piece of bacon, & a
broom - He came back
quite sick - took a heavy
chill. He ate no supper &
seemed very sick, about nine
o'clock he was so sick I was
frightened, he was delirious.

I had him administered
to & he went to sleep. Slept
pretty well all night but has
not been able to be up today.

He ate a very little once but
threw it up. I think it is a
heavy cold he took from having
wet feet. It has been so stormy
all week & his shoes have completely
given out, they are in holes all
over. I thought they would last

till you came down - but I
will have to get him a pair
tomorrow if he is well enough
for me to leave. I have, even
five dollars, and nothing
hardly on hand, but I will
get along till you come down
I do not see how you can
thrust it is so stormy did
not the hail & storm hurt
the oats a good deal?

Oh well I would like to see
you so much - I am so lonesome
today - Well I must quit for
now for the children are wanting
supper & I must get it.

Your Loving
Mama

Supper is over & I will write
a few more words. Wesley
seems no better. He complains
of being sick all over but tonight
