MRS. N. E. C. REAM
929 GAVIOTA AVENUE
LONG BEACH, CALIFORNIA

Dear says he
will write me
soon says he
will write me
soon says he

My Dear Wesley & Mamie - At last I
have got at writing to you. I have meant
to write sooner but just did not do so.
I have always been glad to read your
letters you have written to Jean. I hope
you are all well. I hope, Mamie, that
your mother is better by now. I am
glad you have got along as well as
you did with your home. I surely
would like to see it. If all goes
well I hope to see it next summer.
I am real well. I dae folks have
colds but are getting better.
There is lots of "Flu" around these
parts. Jean has had it but is
better now. He was in bed 4 days.
He has been up now the last 2 days
and looks very much like himself.
I took good care of him and he was
good and stayed in bed till he was
better. He expects to go back to work

next Monday. The reason I did not
write when he got sick - I did not
want you to worry. That would have
done no good and I knew he would
soon be better - which he is. I did
all that could be done and he did
fine - So you do not need to worry
now - He is all well again - just
has to be careful for a few more
days and get his strength back so
as to go back to work. Now don't
think I would keep any thing from
you if every thing were not going all
right. I am hoping they will keep
him at work in the plant and that
it will keep him from having to go to fight.
I really think that is the way it will be.
We have not had any word from the folks
in the P.D. since the message Xmas day.
I don't think they are allowing messages to
go thru. I know we can't send any. Of course
we are very anxious to hear from them. I hope
J. R.'s family are over the mumps. I have not heard
from them for a long time. Write when you can.
Dean joins me in sending love to all. Mother (P)
