

176 Arlington Ave., Berkeley, California - 94707

Saturday, March 28, 1964

Dear Wesley & Momie:-

We have been planning, or wanting to write you, ever since we received your Christmas letter with the nice picture. It is surely a nice way you have to avoid the real cold weather. We know your family in Tempe are happy to have you near.

It is really wonderful the happy life you have had for fifty years. We hope and pray your health will remain good and you will have many more good years together. We hope we can help you celebrate the big event, but we will probably not have any of our children with us. I do not know just where Eldon will be, he wants to find work at the completion of school. Marilyn and Leane's children are in school until June 12 and that involves eight, so it is important that they are not taken away at that time. Forrest and family are in North Carolina - David took his wife and baby to Fort Bragg to stay with Forrest until he can find a home for them at Fort Monmouth, New Jersey. David has been attending the University at Charlottesville, Virginia. He graduated from Law School, passed the Bar here, went in the Army as a 1st Lt. He was one of five honor graduates in a class of eighty at Charlottesville.

I would like to attend Leadership Week in Provo after we leave Bear Lake, but we might not be able to wait that long. It is to be held June 10 to 14. The school conducts a few days in Oakland, but we enjoy staying right on the Campus in Provo - farther away from "sick" calls.

We plan to leave here April 28th and fly to North Carolina - see our family there two days, then attend a Kroque family reunion at the home of my brother Evan and his wife. They have a lovely Colonial home in McLean, Virginia, say they have room for Evan's brother and wife, four sisters and husbands. We will spend the weekend with them, then to N.Y.C. to the Fair a few days. The others will return home, but we plan to see David and family a day or two before we return home.

We are having very beautiful weather here, trees have been in bloom since the 1st of February and it is sunny and warm at present. It is quite a contrast to what we hear in the case in some parts of the country.

Douglas had to leave for surgery - I told him I would get part of the letter written. We have cooperated on what to say.

Love to you and all your nice family, Lucile

Lucile has covered the topics well so I should just say amen,
But we wish it might be later so we could bring some grandchildren.
We will be looking forward to attending your celebration, thanks
for the invitation. We are enjoying good health. We are pleased
you folks are taking advantage of Arizona for your winter quarters.
We would enjoy your coming this way sometimes. We understand because
we are far from the beaten track. Love, Doug
