Property and Produce of All Kinds Listed
for Sale for the Farmers.

Dingle, Idaho, Feb, the 27 1911

W.W.Ream:

Moscow
Idaho.

Well Wesley,

Your letter at hand and considered and regard the quarry I am willing to turn the whole thing over to you and you can do as you like a bout it , But I think the better way for you to do is to get a job at your profession for a while as you will be fresh from school and if ever you intend to do anything at it the sooner the better. You can see that when you are in the world and mixing with it you can get information regarding the buisness while the other fellow is paying you. You will have leasure hours in which you can make the necessary inquiries. And you will meet with all kind contractors , You can study up the buisness thoroughly before going into it Now as your friend does not want to advance any money it would be necessary for you to go to all of the expense to demonstrate ,which will take some read money. There is no question as to the quality of the stone and a demand for it I will make all of the enqiries you wish and send them to you and you can arrange the matter to suit yourself. you can take the property and handle it as you wish as long as you are making out of it. Take a job if you can get it in your line and work the stone buiness gradually. If there is no job in sight then go after the quarry. I will write and get the information and send it to you as soon as I can . And I will take more time and go into the matter more fully. At present I am waiting for the Government to us a chance to locate more land and as soon as the time comes we will secure claims allround the stone claim and have the entire controle of the country round.

We are having some cold weather her just now quite a little snow & it looks like the winter would run a long for some time yet. We are all well and getting ready for the Spring work. I will see if your Mother wants to write you a few words. Yours as ever,

W.D.Ream.
