My Dear Wesley & Mammie -

It has been raining a good deal of the time for nearly a week. I suppose it must be snow up there. If so it must be getting deep. I hope you all keep well and not get too cold. I am real well. I am staying nights with Ida. She comes and gets me after school and brings me home in the morning on her way to school. I like to be at home days. I could stay, too, at night but she says she would worry.

Everything looks like we are going to have an early spring. When this rain stops things will be all ready to grow. Hope it does not turn off too cold. Many around here have had colds. I am glad Jean's eye operation is a success. Hope his eyes will be alright. I know he must be working hard. I know Jean. He is surely a good worker. I da takes me out to the "Sunnyside" where Dad is waiting - every week we take out a few flowers from my back yard and put in his vase.
