

Mar. 26 - 1941

My Dear Wesley & Mamie -
Just a line to let you know
I da is still improving - If all
goes well she expects to be out
of the hospital in 2 more weeks.
The scalp wound is alright
but it takes longer for the
bone to heal. I saw her
yesterday - She looked better
than since her accident.
I am writing in turn to each
one of the families up there, so
if each one tells the rest
they will know how she's getting
along. I am now starting on the
3rd round of letters. I take it for

granted you are all interested
and will pass the word along
because I ask it that way.

I am real well, and hope you
folks are all well too.

Don't work too hard. Take care
of yourselves. It is easier to
keep well than get well.

Lots of Love to all

Mother (R)
