

Dear Neddy and Mamma
These days are 4 days apart -
For both of you men if you
will be thinking of you both on both days
over

But a lifetime full of good cheer
And a heartful of blessings
to linger and stay
through every day
in the year!

I hope your boat has a very
nice birthday. I had hoped
to be with you on that day.
But it was not to be. I don't
blame anybody. For this
the best you could - but I
to get a job and to travel.
When even every thing is ready
I can cover. Just let me know
if you need money let me know
I can help in that too. Just
let me know. I am well well
with love

I do wish you both a happy birthday
too - but may not get at writing.

She sends Love.

I hope you both have real
nice birthdays. I had ~~hoped~~
to be with you on these days.
But it was not to be. I don't
blame anybody. You did
the best you could - but it was
too big a job and too hard.
When ever everything is ready
I can come. just let me know
If you need money let me know
I can help in that too, just
let me know. I am real well,
I am suffering with her head
