

9-27-39
W. W. Ream,

My Dear Boy
regarding the Muck-
ley lake, as soon as
the work is done on the
Ream Ditch put the
lake up well not to
be dangerous to dams
and as the snow is
out of the big ditch
then you can get
the first flow on the
meadows.

I wish you could
find time some time
this winter to haul
some of the willows cut
on ditch + put on E. side
of dam so the waves will
not wash near spring
hill lake well + spring
then you can add
snow in spring + get it
all watered good
I'll tell you later
let me when + how
much you get done
on ditch & the saddle
I am not so good but
hope quite well to all & ad.

Wm. W. Peam,

110 Building, P
