

Nov. 12 - 1945.

My Dear Wesley & Mammie - Thanks for your nice letter I got yesterday. We are so sorry Rodney is sick. We hope he is getting better now. Hope his trouble will clear up and leave no trouble that shows up later. What hospital is he in? Dr. D. is in trouble too. You know he was working in the shipyard at San Pedro, while working he had an accident. got his foot mashed - breaking a bone. He suffers with it. I hope it gets O.K. and leaves no trouble for later. Ruth wrote and told me about it. The girls phoned from Washington D.C. saying they would soon be starting for home and if they did they will be here in another week. I am getting homesick to have them here. They seem to have been gone so long. It has been raining most of the time for quite a long time. It rained all night last night. but the sun is shining nicely today. Fabian and family have moved to Palo Alto & D is working for Marsdon. One he works in the P.D.

Mention that a chicken ranch - open area. They have

moved out there, the whole family. With that Henry

with her tip Bunkle comes back. See and Bunkle

See have walked over to the Cart to play for a while.

She has her hen and arrow. Yesterday Douglas

through Marilyn and Lawrence and came over to

visit me for a while. Milton came for for

while. I was so glad they came. I told them

about Rodney - they said for you to give

them love to him and say if they can do

things they would be glad to do it. But

my love too. I hope you have good weather

and get your grain out and the work done.

From how hard it is up there to get the work

done. How hard the work is. You have my

sympathy.

This year. I guess he has been working too hard.

I would like to see you all. There are my families

up there my love and good wishes.

Write again when you can. I hope the rest of your

feeling pretty good - only sorry for Mother.

in glad you list of my family
