

three towns. Just now they are
in the States - To Europe & home
here Sep. 20.

Jennie has moved to Manila -
with husband & two delightful step-
children. She has a lovely home at
the side of the bay - in a suburb of
Manila. We saw her last week -
the first time in almost a year. She
is very happy.

For servants I have - a girl of 18 who
takes care of the children. A woman
of 45 who with her little girl of 12
do the dishes, wash, iron, clean etc -
I sew - paint my furniture etc - Care

April 30

Dear Mami and Family -

I received your letter with

same. Glad to hear from you
both. To answer the question

Katherine is the new baby - 4½
months & creeps & gets in the sitting
position for a few seconds all by her
self. Awfully strong & eats plenty.

She has blue eyes - & straight hair -
Ma & Billie brown eyed & have curly
hair - Bill is the reg. Lead.
Helga lives about a mile from me

bring you kids even work. We never get on children's diseases over here -
what do you eat?

for children - cook. Of course I supervise everything. I'm busy all day long. I have an English pupil - a Spanish padre - about 25 years old. He is quite charmed to break from his cell to come to my house for his lessons. I try to show him an interesting time.

Dyes - a good share of my time is spent chasing up the darndest - most persistent little biting ants & giving them a good soak with Flit. How could I keep house with out Flit. I dare say it is in every tropical home of white men. Swell for bed bugs - I know - because we lived in a house that had plenty of bats & bed bugs. I could almost write poetry about Flit - what it does to cock roaches - (the big kind) etc.

I must make chow. Nora says she is hungry - Hello to all your family -

Phil

How does Norma like ranch life & Diego

???
