411 Hampton Rd.

Dear Wesley and Mamie -

Rec'd your nice letter some time ago and have been so damn busy - I couldn't write. This letter is a joint one - from me and Gramma Pearl both - as she is sitting by the kitchen stove gaining me ideas. She and Beulah sleep here - together in big bed - Nora & John in living room. Patricia Sally & I in room across from bath and Kate in the kitchen. I brot the wicker furniture in from the barn - one is Kate's bed and F. D. in earthed a desk - a wind break for John. We are in good shape as Heber has told you. Are patching up a few defects - such as teeth & glasses before going to work. A long drawn out job. I get love some for the normal P. J. Life is hard here - so difficult to get around - I would like to live in a small town -

Gramma says to tell you she is feeling fine. Milton takes her out for a walk and a sunning every days. She rests in Kate's kitchen bed during the day - so she is in the midst of every thing. My sister gave me her radio - Another interest for her.

She appreciates the lovely night gowns you made for her, Helen May. The clothes you made for Beulah are smart. I don't know when I've seen Beulah look so smart as now - Helen and Milton are wonderful to us - John and Sally have started school - it is too easy for them - Nora has not decided what she wants to do. She has decided what she doesn't want to do - which is almost everything - Fabian is busy working around with Milton. Kate is spending a few days in Santa Clara with my relatives I miss her she is my best girl.

Beulah was thrilled to talk to her boys -

We all send our love - We will take a trip to Idaho when we get settled a car etc -

Grandma
and Truth -
