Dear Mamie & all.

I guess you will remember what happened 25 years ago tomorrow "the 15th" and the same mud is here that was ^{everywhere} then. Mersey it is nasty underfoot. Had a good old blizzard this noon and all P.M. It rained Tuesday & today until it started in snowing Mitchel and Cliff were wet to the skin. We got your letter Fri. and by it I take that you folks haven't heard from Beulah or Fabian's like we did. So will put this copy in that Remmy typed off for you folks out there. We received this Sat the 3rd.

This is the answer to the "gram" we sent last fall. That Wesley thought never would be sent in to the P.O. It is dated Feb 21st and censored from some where. Air mail. The nurse gave you folks lots of news. I was wondering if Mitton would go meet the planes that came in to S.H. or maybe Douglas. Then your letter came telling us the good news. Just what kind of questions did you folks ask that she couldn't ans. Mamie? as they had cleaned house on Japs there and as it would seem no harm could be done now with the U.S.

in "Life"
I believe
I can see
Beulah in
it up on
the balcony
or the lift
at Lancia's
Dormer

army protecting, if they did tell anything. Did
you see the "Life" magazine for Mar 5th
It has plenty of interesting pictures & reading
also in "Redmens Home Companion" for
April has an interesting article in it.
Received direct from the P.I. from a nurse. She
is on her way home now. From Beulah's letter
it would seem that she & Kiddie will be
heading ^{soon} straight for the States. I can't
imagine Beulah ^{as being} thin. She has always
been sorta plump. I do hope the news
the Johnson's sent Mather Peam is right
and correct. I wonder why we have never
heard about the message. Received I wrote
Put & ask them to send us what the message
said & ask Mather P. too but not any one said a
word about it. Oh wish Beulah had mentioned
of Sabian's "Children". We would all feel better
about them. It seems strange Beulah so near
to S. & R. that she couldnt go see them
unless they are all in bed. I cant or all in
quarenteen. I must close now and go to bed
It is about midnight. Write when you get
time and thanks for the good news you ^{love} sent.
Love to all the "Holks" there. & Best Wishes Mabel
