March 26, 1923

Mr & Mrs H. Peam

Here goes to write:  
after a long delay, there is nothing  
that I dislike to do more than write  
and the composition of my letters  
shows it.

We <sup>are</sup> well, since the flu left us, but  
during that time we had a siege.  
The winter weather drags along there  
must be three feet of snow on the level.  
If you have to get off the road for  
a passer by it, putting the horses to  
test to get back. All indicate a late  
spring a blessing in disguise which  
usually means a big harvest so  
though I we complain we feel to  
rejoice.

We have been few in number this  
winter and have had few what they  
call good times excepting meetings  
which we manage to keep up under  
the difficulties.

Faint, illegible handwriting on lined paper, possibly bleed-through from the reverse side. The text is mirrored across the center fold and is mostly illegible due to fading and bleed-through.

109  
Bro. Kutterer is gradually getting better  
thinks he will be in Pocatello at work  
by the 15 but it looks doubtful. Seven  
weeks he has been home sick. But if  
all goes well meaning him the family  
will move to Pocatello for period of  
time.

Agness Moore has been in ~~the~~ California  
this winter.

Margaret Moore writes of wonderful  
times in Burley. She must be satisfied  
of the change. J. Chinah

I have been very lazy this winter and  
like it quiet well. Feel, and sleep better.  
Soon we will have to get busy.

I expect to go to Salt Lake conference  
represent the Stake Board of Relief Society.  
It's a big risk of my life after this  
stupid condition I have been in  
this winter. Maby will get run  
over ~~HaHa~~. Time to get dinner from  
aunt Delia over

The hope you enjoy health, show in charge?  
and the baby
