Aug 24 1953 -

Dear Wesley & Mammie,

Just a note as I never find time to write. I was so sorry to hear about the accident but glad to know Mammie was well enough to be out of the hospital. I hope there will be no lingering chronic effects.

I am sending 2 bottles of refined liver with B₁₂ added. She should have 1 c.c. 3 times a week. Also 1 c.c. of the B₁ with added B complex. In fact it would do Wesley good to have a shot once or twice a week.

I was glad to hear you are starting to get some baptisms. Soon you should have a firm beginning and make it easier for all who follow.

I have been short of \$ for some time but probably you too have so I hope this \$50 helps. Let me know if you need any other stackings.

Lots of love
Pessilite

Miriam & Helen got 1/2 of amt. a couple of weeks ago - we haven't heard yet. Mammie & Helen are staying well.
