Dear Wesley & Marnie:

In answer to your letter giving me an invitation to again visit you after the long visit I made last winter I question how you can be hospitable to an old aunt like me carried away with the splended time you showed me and the wonders of California I feel I intrude on your hospitality and am tempted to do it again as it was one of the best times of my life never to be forgotten I question how you all could show so much courtesy. But Oh how I liked it and appreciated to the full extent. The way doesn't seem possible for me to come this year the way I feel in poor health it would not be a good or wise thing for me to go many thanks for your invitation and if I get renewed health and strength one of these days will come Eldon & Norma asked me to spend the winter with them I thought I would rather go when spring opened up and see the newness of life spring forth around Eldon home at Clearfield the surroundings are beautiful I don't expect to remain there very long Theron figures remodeling our home making

a big change and of course I would like to see the big change made as it will be to my interest to.

I read your Christmas ^{card} and was glad to hear from you at that time I was too sick to address my cards Twila did it for me or I would have written you at that time you asked where I sat in conference close to the East door Alvin Connie & I if you remember a woman turning and looking at you many times it was me I had a new coat & hat on maby that deceived you I rather believe that to be the reason I know well you would always recognize me.

I wish you could just take a pleasure trip up our highway and see the banks of snow piled up Theron & Twila took me for a ride we walked on top of snow getting to high way Theron when we got to high way made steps with shovel for me to get down houses were hid to our view the road is not wide enough for school bus to take children to school bus weeks we have had no school It looks like I will have to close and I think I have said enough

Lore and best wishes to all aunts & Lila

P.S.

I have made pillow slips for
Ida Mary
